

60L lunchtime event

***Stephen Bygrave, CEO of BZE***  
***on***  
***Seeking 100% renewables in Asia***

**12.00 – 12.45pm, Wed 22 July**

Ground floor meeting room  
60 Leicester St, Carlton

***Bring your own lunch***

Hear about the first of Stephen's planned trips to Asia to promote 100% renewables not coal.

Stephen Bygrave is CEO of [Beyond Zero Emissions](#) with extensive experience in climate-related issues at community, NGO and government levels. In September, he will go to Sri Lanka at the invitation of ECO-V, a local NGO. [ECO-V](#) is organising meetings with activists, environmental experts, NGOs, government and industry leaders. Stephen will discuss BZE research that has demonstrated how to reach 100% renewables. The aim is to empower Asian countries with information to help them bring about alternatives to coal.

Trips to other countries in the Asia Pacific will follow.

Stephen's visit is being sponsored by Journeys for Climate Justice (JCJ), which is raising all the necessary funds. See the website [www.jcj.org.au](http://www.jcj.org.au) for more details.

JCJ is a small Melbourne-based NGO with 100% volunteers that meets weekly near Victoria Market at the Multicultural Hub.

Donations to help cover the cost of the trip are welcome.

An email to [jcj.secretary1@gmail.com](mailto:jcj.secretary1@gmail.com) indicating your interest in attending, or in joining JCJ's mailing list, would be a great help. For more information, ring Jim on 0488 956 506.
